CONVECTORS

Combine convenience and efficiency

Your guests will be perfectly happy with the warmth from this direct heater. Although it is so compact, it plays the role of an efficient main heating system and is ideal for guest rooms in hotels, B&Bs or student accommodation thanks to the integral room control mode. Your qualified contractor programs the optimal set values for you in the appliance and your guests change the preferred temperature when required within the specified boundaries by pressing the buttons on the appliance.

Your benefit: thanks to this special room control mode, you always have full control over your consumption costs. You also benefit from the high efficiency of the stylish wall mounted convector. The long service life of its components and the safety offered by overheating protection make the direct heater the right choice to meet not only your demands but also those of residents in terms of high heating comfort.

The main features

Wall mounted convector as an efficient main heating system for the living space

With integral operating mode specifically for guest rooms in hotels, B&Bs or student accommodation

Even, quiet, air heating

Metal casing and slimline design

Operating controls with illuminated LCD screen

Weekly timer, frost protection and open window detection

Control unit with self-learning capability: automatic calculation of the preheat time in timer mode

Safety through overheating protection
