

Service tool CNS

CONVECTORS

PRODUCT-NO.: 203981

Retain full control

.This separate tool allows you to set the course for an ideal connection between heating comfort and efficiency. This is possible using the special room control operating mode with the associated direct heating. As the operator, you make the appropriate settings yourself and program the set values for comfort temperature, setback and frost protection. Since the user cannot change these values, you retain full control over heating costs

The main features

Tool for configuring the CNS Trend NC for using room control mode

Easy to operate

Values can be programmed individually

Intuitive operation via Touch-Display
