

HSBC 180 S Plus (GB) Set

PRODUCT-NO.: 204551

Benefit from a range of functions in the smallest of spaces

This integral cylinder makes it easy for you to enjoy heating and hot water at any time, yet in a particularly economical way. The integral buffer cylinder stores thermal energy that isn't currently needed and releases it to the heating circuit when it is. At the same time, it also boosts the reliability of the system as a whole. Thus making sure that you're plentifully supplied.

Find your cool in the summer

An additional benefit of this integral cylinder is the option for cooling via an underfloor heating system or fan convectors. Despite this extensive functionality, you need nothing more than a compact appliance, which takes up only minimal space, conveniently combined with an outdoor air source heat pump.

The main features

Combi unit comprising a DHW cylinder and a buffer cylinder

Halves the installation space required for separate cylinders

Compact, reliable and energy saving

Perfect for combination with an air source heat pump for DHW heating and room heating

Can also be used for cooling

Type	HSBC 180 S Plus (GB) Set
Part no.	204551

Technical data

Energy efficiency class	B
Standby energy consumption/ 24 h at 65 °C	1.29 kWh
Nominal capacity, DHW cylinder	178 l
Nominal capacity, buffer cylinder	80 l
Surface area, heat exchanger	1.59 m ²
Capacity, heat exchanger	10 l
Height	1919 mm
Width	605 mm
Depth	917 mm
Height when tilted	2007 mm
Weight	145 kg

Availability on request
